

## About Us

Patriot Energy is a full-service energy procurement and management firm specializing in electric and natural gas supply procurement for commercial, industrial, and government organizations. We help companies implement strategies to control and reduce energy costs. As the largest retail electric and gas broker in New England, Patriot Energy manages a high volume of transactions on a daily basis and has successfully secured competitive supply arrangements for over 14,000 customers.

We provide our clients with the expertise and transparency necessary to make an informed decision when selecting a purchasing strategy best suited for their facilities unique consumption profile, as well as their short and long-term business needs. Patriot Energy representatives are available to meet with you to answer questions, review our programs, and ultimately design a customized purchasing strategy for your business.

When choosing Patriot Energy you will still be a valued customer of the local utility that “delivers” your electricity or natural gas to you. They will still maintain the wires, pipes and meters that gets the electricity and gas to your business. You will however gain the ability to take control of your energy costs. Patriot Energy has a staff of full-time employees that work in our operations department and customer service center that are readily available to answer enrollment and billing questions.

## Solutions

### Electricity Solutions

There are numerous ways to buy electricity. Based on the market, customer’s risk tolerance, usage patterns, size and specific business goals, Patriot Energy will work with you to design a purchasing strategy.

### Natural Gas Solutions

Natural Gas markets can be very volatile which makes managing this expense extremely difficult for businesses. At Patriot Energy we have a variety of plans that customers can choose from to meet their goals.

### Green Energy Solutions

Patriot Energy offers a variety of programs designed to promote efficient and intelligent energy use. We have all of the resources needed to successfully plan and execute a comprehensive energy solutions program.

## Products

### Freedom Plan (Fixed Rate)

If your business needs price stability and budget certainty you can sign up for a fixed price solution for all of your usage for the term of your choice.

### Independence Plan (Variable Rate)

A pure form of hourly index pricing, where your settled usage is matched against the ISO Clearing price and passed through directly to the customer. The Independence Plan is a great solution for companies with above average off-peak usage and when prices are falling.

### Liberty Plan (Hybrid Rate)

If your business requires budget certainty but you also want to take advantage of decreases in market prices, you can choose a combination of fixed and index solutions or take advantage of our other flexible index solutions.

## Examples of Some of Our Products

**Freedom Plan (Fixed Rate)**

**Liberty Plan (Hybrid Rate)**

**Independence Plan (Variable Rate)**
